I am deeply saddened to say that Jenni is deceased.

Jenni Arburn passed away sometime between Saturday night and Sunday morning [26 May 2019]. Jenni had some long term health issues, and we believe she succumbed to complications from that.

Don Arburn was in Memphis waiting for his truck to be serviced, and flew back today on the first flight available. He is trying to cope with this staggering loss, and requests no calls for a few days.

Feel free to contact me if you need him or have questions. I will keep you updated here.

“I want to thank everyone for their well wishes and prayers for my wife, myself and our family. Jenni Arburn is in the process of being released from the medical examiner’s office to Sunset funeral home. Joe scheduled a very short viewing for next Wednesday for myself and her daughter, followed by her cremation. A wake will be scheduled sometime in the next month or two, likely at my sister Ginger Arburn Rogers’ home. More later.”

From Don Arburn Sunday night:
“I have tried to get word to everyone, this is for those who I don’t know how to get ahold of. Jenni Arburn passed away sometime last night unexpectedly. I wasn’t able to speak with her this morning, or all day. I called a neighbor to check on her, no answer. Friends broke in and found her. I am stuck in Memphis until the morning. Please send love to her so she can find her way. More when I know more.”

Jenni was an active caver in the 1980s and 1990s. Health issues limited her caving afterward, but she would often attend TCR and other events and support cavers and caving activities in whatever way she could. She was a good friend and a good person, like many we’ve lost over the past year. My love and sympathies go out to her and Don.
